Whisperers.

HOW IMPORTANT is a "whispering" campaign. While per does not travel far and should receive little attention.
Men whisper when they are ashamed of what they are saying and those that hear do not respect the whisperer.
There was whispering about Abraham Lincoln. Some of it taking the form of a statement that Lincoln was married to a colored lady and traveled with her. That did not check his useful career.

Senator Robinson forces into every newspaper alleged whisperers about Governor Smith that might as well have been ignored, including the silly statement and made public property by Senator Robinson that "Governor Smith is a drunkard."

The fact that Mr. Smith has been a hard working Governor of New York for four terms is enough answer to such a whisper without official denial.

Wise old Senator Murphy of Troy, N. Y., used to say "Never answer anything, always attack."

Alfred P. Sloan, Jr., General Motors' president, says he will vote "for Herbert Hoover and prosperity."

Mr. Raskob, former finance chairman of General Motors, had already come out for Governor Smith and retired from General Motors.

Mr. Sloan will vote for Hoover and remain General Motors' president.

Intelligent Republican spellbinders will tell their audiences "Mr. Sloan is for Hoover, because he wants prosperity to last, at least until American finish paying for their new cars."

Sloan and Raskob are both able, but there is no doubt that Mr. Sloan offering prosperity will influence more Americans than Mr. Raskob, hoping for wine and beer, "if possible."

Give an American enough prosperity, and his bootlegger will solve his beer and wine problem, also whiskey, gin, champagne, Bacardi and liquors, ALAS.

Next Monday Maine elects a governor, senator, representatives and legislature. Each presidential year Maine's election is supposed to show how the nation will go in November.

This year results in Maine will mean less for Maine voters cannot get information as to what the solid South will do.

Information from the South indicates that the big Democratic problem is there.

Little boys know the names of many heroes. The boy that stood on the burning deck; Wolfe, who climbed the heights of Quebec and died; and many others. Few will hear of Ferdinand.

Ducetel, French, fighting cancer, with the aid of X-ray, was repeatedly warned that his work would cause his death if he continued.

He underwent 18 operations, made necessary by his X-ray work, became partially blind, recovered eight enough to resume work and kept at it. Yesterday it killed him.

The Governor suggested that they offer a speed-up in night, in which case the mill owners might be able to restore the 10 percent wage cut.

Their only reply was an argument that the mill owners were the employer, on working conditions in the mill. The mill owners, in turn, sent 500 envelopes, which he said, averaged \$17.5 a week.

There were 1000 of these interruptions by James Reid of the Rail River mill, who said he had been personally threatened at one time to have his head blown off.

"I have never been arrested," he said, "and I should not understand police interference with my freedom of movement as such an unjustified power grab by the government." He then asked for as much as former Senator William M. Butler, New Bedford mill owner, to end the strike.

State policemen in plain clothes mingled with the group in the governor's office while the meeting was in progress.

The cost to the State of the imprisonment of 100 Italian anarchists and 100 Italian Socialists in the Coast Academy in New Bedford was \$100,000. According to a report by the adjutant general in New Bedford, the cost of the strike amounted to \$460,000. The cost of the rescue committee proved less expensive.

Atty. Levy, arrested today after having been arrested only last week on two complaints of a similar nature, is charged with having been in Mrs. Alice Jennings, 42, of Baxter

One of her four children, John, 7, was struck and injured by an auto-

month before Dec. 19, 1937, and was at the time hospitalized there. Mrs. Jennings declares she signed a weekly membership card for the Bar Association under the guidance of Levy, whose services she had previously secured. Instead of receiving \$1500 from Levy as she expected, she says, she got only \$100 and was left with no membership.

Heading of Levy's arrest last week, she wrote to the Bar Association and she talked with Special Agent Herbert Dwyer of Milk at police division. On Friday she wrote, Levy visited her in the New York City road yards, where she was at work, and he indicated her to sign a letter to the Bar Association which she also received the \$1500.

An investigation which Dwyer had begun caused her to write her friend and to swear out the complaint against Levy. She was taken to the Barack jail division and arrested the lawyer.

Arrested before John Murray in the New York City road yards, Levy and his wife were taken to the county jail and held for a week. Levy was held in the county jail and his wife was held in the county jail.

HE WILL START AT BOTTOM IN SHOP

New York, Sept. 5 (INS)—John Coledge may be the son of the President and a college graduate, but when he enters business he's going to start at the bottom and work his way up.

It was learned today John plans to go to work in the electrical appliances manufacturing plant of Geo. Trumbull of Connecticut.

His first job will not be of the white collar variety. It is underfoot, but one actually in the shop. Of course, he is expected to work his way up.

Gov. Trumbull is the father of Florence, that attractive young lady to whom, it is rumored, John is engaged.

John arrived in New York today. He at once conferred with E. J. Pierson, president of the New York, New Haven & Hartford Railroad, then with S. A. May, treasurer of that system.

On September 8 Miss Trumbull will arrive from Europe, where, it is whispered, she has been selecting a trousseau, and John undoubtedly will remain in New York to meet her.

From here the couple may go to Hartford, then to the Trumbull camp in Maine before John buckles down to his first job.

Meanwhile, President Coledge is showing some signs of annoyance over the publicity John is getting. It is thought that as his son holds no public position there should not be so much newspaper devoted to him. It is apparent he fears so much attention may go to his son's head. But those who have come in contact with John this summer do not hold this opinion. Five years as "America's Prince of Wales" seemingly has accustomed him to public notice. He is of a retiring nature, and carries lightly the state of the crowd. He made many friends in the Wisconsin northwoods.

WOMEN FINED IN SOUTH BOSTON LIQUOR CASES

Two women paid fine in South Boston Court today for keeping and exposing liquor as the result of raids by Sgt. William Matthews in a "crusade against 'kitchen barrooms'." Mrs. Mary Scoville of Thirtieth st. and Mrs. Della Lynch of Fourth st. each paid \$50 after pleading guilty.

NANCY MILLER'S RAJAH SUED BY INDIAN BEAUTY

London, Sept. 5 (INS)—Alleging wrongful imprisonment of her daughter and herself, personal injuries, systematic cruelty and misappropriation of property, Sowkhal Pandarath Rajapurkar, a Hindu, is suing the former Maharajah of Indore for \$50,000 damages in the Bombay high court, said a Central News dispatch from Bombay this afternoon.

The woman claims that the former Maharajah, who is now the husband of Nancy Miller, of Seattle, lured her daughter and herself to Indore for improper purposes and kept them imprisoned there for 10 years.

Sowkhal, who is a woman of striking beauty, testified in her petition to the court that both she and her daughter had been friends of Tatyassah Holkar, cousin of the former Maharajah of Indore.

In 1915 they were persuaded to go to Indore to participate in the festivities in celebration of the birth of a child by the former Maharajah's second wife.

The exile of Indore was smitten by the beauty of Sowkhal and

ILL 5 YEARS, THEN IS HURT

2 CHILDREN STRUCK BY SOUTH BOSTON AUTOS

Two South Boston children were injured in automobile accidents today in a block of each other and within five minutes. John O'Toole of P st. was knocked down by a car driven by George S. Mathon of East Third st. and Lillian Puckey, eight, of Broadway, was struck by Dr. Alfred P. Leary's car.

'TAKES RAP' FOR NEFF, SPEEDY TRAIN RACER

J. Fern Hollis of Newton today "took the rap" for his "rambling, rambling friend," Jerome P. Neff of New York, who claimed to have driven an automobile at a death-defying pace in a successful race against the Mercedes. Lusted from New York to Boston.

Hollis appeared at a special hearing granted by Deputy Registrar of Motor Vehicles A. A. Bonasani where the revocation of his license and restoration was upheld, but Neff was still rambling, somewhere far from Boston.

Registrar George A. Parker immediately revoked Neff's right to drive in Massachusetts on learning of the race, but, although State troopers were sent out to find the man, he vanished completely along with his wife and racing automobile.

Hollis was punished because, according to the statement of Neff on his arrival at the Copley-Plaza, he had lost \$10 with Hollis that he could not beat the limited from New York to Boston.

The Newton man went to the hearing accompanied by his counsel, Atty. George W. Wightman, both of whom refused comment on Deputy Registrar's decision. The deputy said he revoked Hollis' registration and suspended his license because he was unfit to operate a car.

PARENTS URGED TO ISOLATE CHILDREN

Isolation of children to prevent further spread of the infantile paralysis epidemic was recommended to parents in a special announcement issued today by the Water-town board of health.

The parents were advised to keep their children in their homes and in their own yards and prevent their attendance at all private and public gatherings.

A special meeting of the Water-town school committee will be held tonight to consider the health board's recommendation to postpone the reopening of school until Oct. 1. They are scheduled to reopen on Tuesday.

At the same time the Waltham health and school boards will meet to consider delaying the reopening of schools in that city.

This dividend is to be paid on a total claim of \$5,330,171 against the commercial department.

SMART SET ASSEMBLES TODAY AT CHARITY FETE, SAYS BETTY ALDEN

Affair at Brackenside, Hamilton to Aid North Shore Babies' Hospital

THE WEATHERMAN SMILED TODAY ON Brackenside, the Augustus F. Goodwin place, down in Hamilton. For sweet charity's sake and the sake of North Shore Society as it slipped its oolongs and watches a fashion fete, skirts were at their bluest and breezes their softest. Brackenside has a marvelous garden vista for outdoor partying. Greenward at the perfection of velvet, smoothness; terraces marching in orderly array down the hillside; shallow pools to glint in the sunlight; Brackenside has all these rural delights in abundance and prettily done as only the most expert landscape gardener can accomplish. However, had the weatherman been unkind, the major house has untold beauty as background for an indoor charity affair.

MISS BETTY MOUTON, IN CHARGE OF tickets, disposed of many, many party boards. So it followed that many cups of aromatic five o'clock tea were consumed and many dollars enriched the North Shore Babies' Hospital. Crisp confessions, fresh from a famous Fifth are emporium of fashions and fads, came out of tissue swathings to be paraded before connoisseurs. Smart autumnal colorings for its sport; ravishing frocks and pretty shoes for debutante wearers; all the foldover of accessories to make perfect the costume of madame and mademoiselle were shown. The model group was recruited from girls who gave chic to simplicity and charm to elaborateness.

MISS BETTY BARRELL'S ROSE FROCK FLUTTERED BETTY IN THE gentle breezes that blow over "Pinecroft" when slender whippersnaws run down the course and North Shore Society from its boxes viewed the scene of action. An enormous black hat dropped about Miss Barrell's pretty face and her printed chiffon in cape effect gave a razz-dazz party touch to the Goodwin box. Miss Constance Perceval's choice ran to blue. A deep velvet coat above a gossamer blue frock topped by a wide straw also of blue. Mrs. John T. Jefferson China's white wrap and deep purple chapeau made a striking costume for a dark-eyed matron. A smiling bride, just back from the honeymoon, Mrs. Robert Winthrop was a vision in sky blue.

WHEN A BRIGHT-EYED MATRON'S HEAD IS placed in a snug feather top of snow white, the effect is nothing short of dazzling. Mrs. Joseph Hoyt, Jr., at Pinecroft were one of the notable hats recently, and caught every eye as she watched the race perched on her motor. Mrs. Francis P. Sears in white from shoes to chapeau sets on her pretty head a feather toque that sports a long, slender scarf to with the breeze. Mrs. Thomas E. Proctor, 24, is a stately young matron who looks out on the social picture from beneath a beaming hat of enormous width, or from a snug cap, with equally pleasing effect on the eyes of the observer.

THE THOMAS E. PROCTORS have had as house guests Mr. and Mrs. Oliver Goodwin, latter who belong to the elite as defined to the City of Brotherly Love. The North Shore has been gay with out of towners. Mrs. Samuel Weldon, hailing from New York and mother

friends to the marriage ceremonial of their daughter, Miss Anne Wentworth, when that attractive girl weds with Everett Morse, Jr., in Milton's ancient First Parish Church, September 20 is the date, and chosen long ago before September's calendar became so overwhelmingly orange-blossom scented. Milton's old parish meeting house lacks everything of charity ostentation but is strikingly impressive nevertheless in its primitive dignity. Besides it has bowed by the score, but none more brightly pretty than Miss Wentworth will be when she becomes Mrs. Morse, Jr.

UP AT "HAMPER FARM" IN Ellsworth, Maine, Leighton Rollins of Wellesley is vegetating until such time as life's theater affairs cause his return to town and arduous duties as managing director. The Tryer Theater triumvirate, Mr. Rollins, Miss Josephine Strachan and Miss Katharine Charnes Warren, feels well rewarded that their spring venture into little theater production came off so well financially, in that the red ink and the black ink of the books just about balanced when the final curtain rang. Thus invited to further efforts, guarantors, borough committees and patrons are most kindly disposed toward the triumvirate's future plans.

WHEN MRS. JONATHAN BROWN, JR., goes down this autumn to visit the James C. Chaplin, 24, in Sewickley he will see the beginning of the new establishment the Chaplins are soon to have built, a country home on Tudor line fitting beautifully into Sewickley's attractive landscape. The former Mrs. Gretchen Brown, now Mrs. Chaplin, has as usual spent the midsummer at "Tied Top Farm," the Browns' comfortable and hospitable place on the Old Bay Road where that ancient highway meanders through Hamilton, adjacent to the Myopia Hunt Club. Hamilton claimed the Philip Klein Browns this summer there to renew year old memories of their honeymoon days and have a glorious time entertaining and being entertained.

Your Child... at the gateway to Grown-Up Land

With the coming of school, your boy or girl stands farther along the threshold to later life. New ways—new ideas are born. The mind becomes maturer. The body blossoms into fuller development.

It is now that your child needs you most. True, that as for moulding the mind, the school may figure prominently. But so far as your child's body is concerned, you, as parent, must shoulder the greater portion of responsibility. You must carefully guide and guard the physical development of your boy or girl.

And it must be remembered that in this development the foot plays an all-important role. Straight and sturdy bodies cannot spring from weak ankles or fallen arches.

Thus do we urge you to give your child sensible shoes. Coward Shoes are sensible shoes. For Coward Shoes are designed and fashioned so that little feet can assume healthful, natural growth. No weak ankles—no sagging arches—no cramped toes.

Give your child a healthy, happy, vigorous start—in school and in life—with Coward Shoes!

SMITH TO CHICAGO HIT BY ANALYSIS OF STRAW VOTE

SAYS VOLCANIC UPHEAVAL IS NEEDED BY AL TO WIN

By CHARLES N. WHEELER
Special Political Analyst

Chicago, Sept. 5.—What about Chicago? That inquiry is coming in from all sections of the country.

Democratic enthusiasts are spreading the tidings from New York to San Francisco, that Governor Smith is going to carry Chicago by 150,000 to a quarter of a million. This, they will be sufficient to swing Illinois into the Democratic column.

While that may be good news, it is not the news that they are to carry Chicago. It is a message to the effect that Smith is going to carry Chicago by 150,000 to a quarter of a million.

MADE TIME FOR DAVIS
Following the nomination of John W. Davis four years ago, the late Governor, Breckinridge, considered that he had a good chance to sweep Chicago and Cook County.

Anti-Smith Speaker Escapes Alabama

Fluore, Ala., Sept. 5 (AP)—

The Rev. George W. Wilbourne, of Little Rock, Ark., finished as anti-Smith speaker at the county courthouse here amid a bombardment of eggs.

"I could see the eggs coming," said Wilbourne, "and saw they were going to miss me so I ducked. The party throwing them must have been a ball player. I was in the crowd and one of them came in pretty close."

Chicago when the votes were tabulated.

Cocleides carried the city for Davis, with a margin of 20,000. The electoral college with a margin of 275,425.

HOOPER TO TALK IN HUB, SOUTH AND ON RADIO

Washington, Sept. 5 (AP)—The Republican party will use radio broadcasting on a greater national scale during the coming campaign to elect Hoover than ever attempted previously, it was announced today.

All of Hoover's "keynote" speeches in the past, where the Republican nominee believed the election will be decided, will be delivered at night on the radio on a scale of 10,000 to 100,000, a tremendous national speaking will be employed to broadcast Hoover's campaign.

The night "radio talk" will begin in the West, where the Republican nominee believes the election will be decided, will be delivered at night on the radio on a scale of 10,000 to 100,000, a tremendous national speaking will be employed to broadcast Hoover's campaign.

SMALL BATTLE IN MAINE'S OPENED

New York, Sept. 5 (AP)—Statehood that they have their battle with the Democratic national committee turned today to Maine, where the state election September 10 will give the first indication of the direction and force of the 1928 political winds.

The Democratic organization has put forth an unusual effort in Maine this year, determined that even should the State be lost to the normal Republican majority, the C. O. P. victory shall be out of the last possible way.

Nellie Taylor Ross, former governor of Wyoming and wife of chairman of the national committee, arrived at Bangor today, turning for a speech tonight at a Democratic rally in Portland.

Miss Elizabeth Murphy, national committee member from New York, met the director of the campaign, Mr. Alfred P. Sloan, Jr., president of General Motors Corporation, returning to New York today.

A today round-up of the middle West, Chairman John J. Raskob of the Democratic national committee, returned his attack upon prohibition with a denunciation of the employer and industrialist who supports the dry measure as a factor in American prosperity.

"Prohibition is just a scheme to prohibit those without money from having what those with money have," he said. His argument was called up by the recent announcement of Alfred P. Sloan, Jr., president of General Motors Corporation, declaring his support of Herbert Hoover.

Ross expressed the opinion that prohibition is a failure, that it is a waste of money and that it is a waste of time. He declared that "our prosperity is due to our high wages and enormous consumption of goods."

Coke Ranks High as a Home Fuel

Preferred for Homes Because Low in Ash, Smoke and Soot

When the superior heating qualities of coke are understood by the public there is certain to be a tremendous demand for it as a household fuel.

As it is, the home market for good coke is growing by leaps and bounds. People who during coal shortages, bought New England Coke as a "substitute" fuel for furnace and heaters, range and grates, found it a superior fuel; cleaner, more efficient and economical than hard coal.

Contrary to general belief, New England Coke is not a by-product. It is scientifically manufactured to retain all the carbon—the heating element of coal—and eliminate the by-products that make ash, smoke and soot. In other words, coke is a preferred fuel, giving more heat per ton, and much cheaper than hard coal.

The cleanest, most evenly graded and highest carbon coke available here in the East is made in the big Everett plant of the New England Coke and Company at where business offices at 250 State Street. Full information about fuels may be obtained.—Advertisement.

Ice Elephant Gets "All Wet" Sitting on Curtis' Table

One of the features of the luncheon to Senator Charles C. Curtis at the Ritz-Carlton today was the replica of an elephant carved out of a block of ice, which was borne in and placed solemnly in the middle of the table. It brought a laugh from all, which added to when Congressman William C. Clegg said:

"That's all wet and we are dry."

When the elephant began to melt it was removed.

BOSS'S 2 CASES HELD UP

Two cases against Andrew J. "Boss" Gillis, mayor and filling station proprietor of Newburyport, scheduled to be heard in the local courts today, were postponed to September 12.

Duffy was absent, being represented by City Solicitor William J. O'Connell.

One case before Judge Crosby in Superior Court was on a petition for writ against the Newburyport City Council, seeking to render null and void its action granting Gillis a permit to sell gasoline. It was suspended until September 12.

The second case before Judge Crosby was on a bill in equity brought by the neighbors seeking to prevent "Boss" from running the filling station. Last week he agreed to sell the station and his permit to sell gasoline until he received a permit from State Fire Marshal Noel. As the permit has not been received, the case was postponed.

TRUTH AND POVERTY SET PRISONER FREE

The truth made Charles Curtis of Broadway, South Boston, free today, although it convicted him of keeping and exposing, and left a recommendation for Judge Day to place the case on file. Then Judge Day found that Curtis was unable to pay a fine and suspended that.

Judge Logan went to see for himself. He found there was such a case, convicted Curtis of keeping and exposing, and left a recommendation for Judge Day to place the case on file. Then Judge Day found that Curtis was unable to pay a fine and suspended that.

CURTIS' PERKS OF E. OF PEOPLE TO BUSINESS

Continued from First Page.

Senator Charles C. Curtis, Republican of Kansas, today was the center of a political storm in the Senate. He was accused of using his position to secure a tariff for himself, and of using his influence to secure a tariff for himself.

Senator Curtis said in his opening statement that he was not interested in the tariff, but that he was interested in the tariff for himself.

FRENCH FLIGHT OVER ATLANTIC MAY BE OFF

Casablanca, Morocco, Sept. 5 (AP)—

After an air-jump southward this morning, the French transatlantic flight experts, Jean Assolant and Rene Leprieux, returned to Casablanca and telegraphed Paris for orders. They indicated they had abandoned for the time being their project of flying to either South or North America with Armand's plane.

New Rockefeller Church Communal, Says Fosdick

New York, Sept. 5 (AP)—The new church, long erected on Riverside Drive by Park Ave. Baptist congregation, of which John D. Rockefeller, Jr., is a member, is described by the pastor, the Rev. Dr. Harry Emerson Fosdick, as communal.

All disciples of Jesus will be welcome on equal terms. There will be nothing sectarian in the name. "Disciples" invited on Saturday for children are contemplated. There will be open doors for the community's interest in music, amateur dramatics, recreation for boys and girls.

SCHOOLS ARE CROWDED ON OPENING DAY

The world of pleasure was reduced to its least common denominator for thousands of juveniles today when they went back to school in a dozen Greater Boston cities and towns.

Practically every community reported enrollments of pupils larger than ever before.

In Chelsea, 8725 boys and girls returned to their studies, an increase of about 200 pupils over the number enrolled last year.

The senior high school reported an enrollment of 1295, an increase of 700 over 1927. The junior high school also showed an increase. Crowded classes resulted in some

How Can Police Save Huge Sums on Tiny Pay?

Philadelphia, Sept. 5 (AP)—Records showing huge bank accounts, alleged by Dist. Atty. John Monaghan to be owned by high police officials, were under examination in connection with the grand jury investigation of Philadelphia bootleggers and gangsters.

Unless the source of this wealth can be explained, Monaghan declared it would be considered "tantamount to prima facie evidence of graft to officers."

He said it was not likely a police official could "accumulate big accounts in half a dozen banks and possess safe deposit boxes filled with securities on the salary he receives."

Assessing detectives in the inquiry were experts of the federal prohibition department and the bureau of internal revenue.

schools, but Superintendent of Schools George C. Francis asserted that by the last of the week the pupils will have been sorted out to a more comfortable degree.

Woburn schools reported an enrollment of 2115 pupils; Winchester 2230, Maynard 1560, Concord 1300, Haverhill 1275, Weymouth 1200, Littleton 1150, Lincoln 1025 and Salisbury 1000.

BORAH BACKS KELLOGG PACT

Washington, Sept. 5 (AP)—Senate ratification of the Kellogg-Briand peace treaty recently signed at Paris is the hope and expectation of Senator Borah of Idaho, chairman of the foreign relations committee.

"I am of opinion that the treaty will be ratified by the Senate at the next session of Congress," Senator Borah said. "I regard the signing of the treaty by the 12 nations and the action of the other nations since as the most important step in the cause of peace that ever has been taken."

"It is in a sense an endorsement or a crystallization of a profound conviction of the people everywhere and in all countries that war should no longer be accepted as an instrument for the settlement of international disputes."

DRY UNION BARS WOMEN WHO SUPPORT SMITH

Cleveland, Sept. 5 (INS)—Any woman who supports Al Smith for President cannot remain a member of the Cuyahoga County Women's Christian Temperance Union.

Women who are now members, and who are known to be Smith sympathizers, will not be permitted to pay dues. This action went into effect today following the fifth annual convention of the Cuyahoga County W. C. T. U. here.

Robber Slays Agent

New York, Sept. 5 (AP)—While sitting at the window of his Herald Square employment agency this morning, James Larkin, 25, was fatally shot by an unidentified person who robbed the body.

'RUM' IS STOLEN UNDER POLICE'S VERY NOSE

Officers of Division 1 were today attempting without success to explain with some measure of credit to themselves what is said to be one of the most extraordinary happenings in the history of the police department.

It appears that early Sunday night, Robert Mooney of Division 1 found an unattended automobile containing what he believed to be 100 gallons of alcohol in Battery st., South End. The car was driven to Flanagan st. and parked with engine running in front of the police station.

Leaving two patrolmen on guard on the sidewalk, and two others watching from a window, Mooney went and informed his superiors of the find. While the vault was being opened, a young man suddenly appeared in front of the police station, and, disregarding the officers' guard, leaped into the machine, slammed it into gear and drove away.

Pursuit was taken up in a taxi, but the youth got away with the car, which, it was learned, contained in addition to the alcohol, three

THE BOY
who is saved from the clutches of the vamp by the dare-devil young American girl. He gets more love than he knows what to do with.

THE VAMP
who keeps the boy guessing and flirts with a terror on the side. Her technique is very obvious.

THE GIRL
who is hired by the boy to save him from the vamp. She has it sock him in the jaw to keep him from weakening. It's Marion Davies' screamingest role!

DAVIES

THE DISGUISE

COACH CAVANAUGH

Coach Cavanaugh has his Fordham grid squad going at top speed. The New York college has one of the stiffest schedules ever arranged, but will be ready for the opening game. At this early date the players are showing the effects of the former B. C. mentor's teachings.

GRASS DRILL AT B. C. STARTS

Cavanaugh's grass drill, modified slightly by Head Coach Joe McKenney, is on the menu for B. C. & D. grid warriors.

Trampler Jones knows what to expect from now until the grid action comes. There's to be no many pains and aches and brings to take care of that Frank will be working over time every night in the week.

McKenney, spent four years under the Major. He is a thorough student of his style of football and knows the good and bad effects of the drill. And he has cut out a lot of the rougher spots. But even so, that the boys are going to work.

McKenney's squad was out early this morning and went through a light drill. He plans gradually to increase the strenuous drill in the length of time and in the stiffness of the drill.

Considering the condition of the squad as a whole it might be safely predicted that Coach McKenney and his scrimmage in a week.

PARIS ISLAND, the hectic temporary home of thousands of young Americans being molded from raw recruits to well-set up soldiers, lies of ease and comfort of body was transformed in my mind's eye from a mad-ridden place of abject and ill-fitting khaki-clad soldiers to the gathering place of adventurous knights.

The hard work, the rough "show," the drill to be performed as a private in the ranks were elated in my mind and had reached in both the transport bound for France the fresh air breathes waited away all the hardships of the past, deep in the hold of a steamship and of lurking submarines lying in the path of the silent conveyer.

It was the fulfillment of unbelievable thoughts that flooded a boy's mind astride the water-worn ribs of a ship, the river plume in the watching stranger looking ships that down the bay to the ocean-bound for distant ports.

BOOKS, too, followed the army. In France portable libraries were set up and in spare time I had two favorite pastimes—reading and reading. It is that combination that apparently amuses and confuses sports writers. Books and boxing gloves, it seems, should be as wide apart as the poles.

Yet one of my early army acquaintances who is eminently proficient in the science of fist-fists and who has been to no small degree responsible for the high plane of boxing in the world, has reached in both a gentleman by birth and breeding and a person of culture.

He is Major Anthony J. Drexel Biddle, who not only taught me the rudiments of boxing, but by his gentlemanly and culture set an example for me to follow.

If I was an athlete, soldier, lawyer, a doctor or a New York business man, the incident would have passed unnoticed. Strangely enough, I did not see this viewpoint. Every capable man has a vocation—and most men have avocations. In common with millions of other men, mine happens to be an interest in books.

It still affords me a field for mental exploration and stimulation. It is the university from which one never graduates. There are no degrees conferred, but there is a reward whose compensation cannot be calculated.

Chapter VIII of my life story will appear in this newspaper on Friday.

Gene Always Liked to Read Good Books

By GENE TUNNEY
Retired Undeclared World's Heavyweight Champion
Copyright, 1928, by G. W. Tunney Syndicate, Inc.

ONE of my major interests in life, which I did not abandon during my reign as heavyweight champion, was books.

All my life I have been a reader of what I thought were good books. As a pupil in the grammar school of Greenwich Village I took keen delight in the stories that were read to us by the instructors, and in my home at night there usually was a book at my side.

In LaSalle Academy this interest was enhanced. The courses in English required supplementary reading. To many of the students it was an onerous duty. To me it was a source of boundless pleasure. I could while away hours following the trails of Cooper's Indians or the stirring combats of Scott's medieval knights.

It was perhaps, this early stirring of my imagination that gave me the feeling of utter relief when I was obliged to drop my pen as a child, pick up a book and read the uniform of a United States Marine. Before me lay new adventures—there was no unknown waiting around the corner.

No crusader of old carried more enthusiasm in his heart as he clanked over the creaking drawbridge to seek the Holy Grail than I did, as a tall young youth, upon leaving the promulgated daily routine existence that had bound me the prison bars.

PARIS ISLAND, the hectic temporary home of thousands of young Americans being molded from raw recruits to well-set up soldiers, lies of ease and comfort of body was transformed in my mind's eye from a mad-ridden place of abject and ill-fitting khaki-clad soldiers to the gathering place of adventurous knights.

SCHOOLBOYS START GRID PRACTICE

Three suburban high school football squads will start their season of work today after opening sessions that covered details of the distribution of uniforms and schedules. The coaches outlining plans for the season.

Newton high school with 75 men, Malden with 45 and Rindge with 25, are the schools who got off at the crack of the gun. These teams will practice on their respective fields every day this week.

Newton and Rindge will have morning sessions until the opening of school on next Monday. The Malden high school griders will do double duty, having two workouts a day, at 10:30 in the morning and 2:45 in the afternoon.

Malden, with a long list of veterans from last fall, looks as the strongest of the three squads. Newton has eight veterans and should have another nine eleven. Rindge's material is good, but not highly experienced.

Everett Schellfain is captain of the Newton high nine this fall. He is one of the best ends in schoolboy football. Schellfain is a good catcher of forward passes and Coach John L. Sullivan may frequently resort to this type of move with Schellfain to the catcher.

Coach Henry Dufresne has two fine backs in Capt. Jack O'Connor at full back and Ed Friedman at right half. He also has Max Witterman, an end, Ed Lafram and Charles Heilm, fullbacks, and Bob Layman and Charley Conner, guards.

Both Newton and Malden will open their schedules on Sept. 22. The Malden High School football candidates will be greeted by a new coach, who will assist Head Coach Hubert Collins when they report this afternoon. The school committee announces that Anthony Lyons has been signed to aid Collins and to teach mathematics at the high school.

Lyons has been helping Marion Roberts at Brockton High School for two years. He was mentor of the linemen and head coach of the track team. He will probably work at all these sports at Malden and also help with the basketball team.

Lyons graduated from Amherst in 1925, where he was an All-American guard. He weighs 215 pounds and is one of the biggest men ever to play on an Amherst grid. Lyons will receive \$200 for teaching, with an additional sum of \$500 for the coaching end.

Watch These Points
When your hair begins to recede, if you have a receding hairline, or get thin on the crown (2), nature is patiently warning you that you have been neglecting your scalp and balding is surely approaching. Heed this positive warning and save your hair by having The Thomas' correct the scalp disorder that is causing it.

You Are Bald

Three Post Entries Sent to Brae Burn Country Club by U. S. G. A.

PARTRICK'S SIBS BE PART OF NEW PRO

By BILL GRIMES
Three post entries were sent to the Brae Burn Country Club by the United States Golf Association, but there is a proviso attached.
If they can be paired up, Charles E. Foley of Salt Lake City, Frank P. Ross of Hartford, Conn., and G. H. Turpin, of Canada will be allowed to play in the qualifying rounds of the United States amateur championships next week.

Foley, who is a large measure responsible for the success of tennis on the Coast, has been at Brae Burn for two or three days, in spite of the fact that there was no certainty that he would be allowed to participate in the event.

At a golf tournament a few weeks ago in the West he was known as a devotee of tennis, and it was known that he had been playing with the late William George Partrick.

Partrick is one of the best players in the West State, and a former member of a crack at the National Club. Turpin is reported to be one of the best in the amateur ranks in the West.

Schaaf Shows Big Sock at Wigwam

By JACK CONWAY
ERNE SCHAAF'S heavy punching gave him a victory over A. Big Boy Peterson in their ten-round bout at an Argonne A. A. show at Braves Field.

The former sailor, a left-hander, was in a third and tenth round, while the other was in the eighth and tenth.

Big Boy Peterson, of Kansas City, Mo., was the first to get into the early rounds. Byrne, a first class heavyweight, then came in and fought the first round.

Shadow Bowden stopped Pete Quilins in three rounds, while George Glover stopped Ray Ryan in two frames.

JACK SHARKEY, limping badly as a result of his recent injury, attended the show. Sharkey hopes to be able to resume action in the ring in October.

Witch Hazel an Aid to Loveliness

By Maria Jeritza,
Prima Donna of the Metropolitan
Opera Company, One of the
Most Beautiful Women

MODERN women have learned that the intelligent use of beauty is a sign of good taste. And it is a sign of good taste to wear a dress that is both beautiful and comfortable. The new dresses from the House of Calvin Klein are a perfect example of this. They are simple, elegant, and comfortable. They are made of the finest materials and are designed to flatter the female form. They are a true reflection of the Calvin Klein aesthetic: clean, minimalist, and sophisticated.

THEIR little bodies deserve the best in sleep and rest. Give them a bed that is quiet... A spring and mattress that is resilient, relaxing, that sends them into deep, sleepy dreamland. Then, they'll go off to school with active minds as well as bodies... wide-awake, full of energy. The whole family should get deep, refreshing sleep. Englander products have been the standard of quality in construction, comfort, durability... for a third of a century. *C. Sold at furniture and department stores. Write for booklet.*

STOCK PRICES IN VOLANT SWINGS

New York, Sept. 5 (AP)—Violent swings in prices took place on the Stock Exchange today as speculators profited from a lull in what appeared to be a long bear market.

Most stocks were bought in the early afternoon and most up \$10 to a share to a high record at \$23.50, after speculative evidence had been shaken up a bit by the Wall Street Journal, which reported that the Federal Reserve bank had increased its discount rate from 3 to 4 percent.

Public opinion demonstrated great strength from past operations. American and Foreign Paper were held more than 100 shares in a high record at \$21. One hundred shares of National were held for a further advance to \$27.50, a new high record. Brooklyn-Manhattan Trust and Federal Reserve Bank were held more than 100 shares.

More than a score of issues were elevated to high levels for the day or longer. Warner Bros. common stock rose from \$12 to \$22, broke to \$21 and returned to \$22.50. General Motors fell from \$22 to \$21 and returned to \$22.50.

SUPER ZEPPEL SEES THE TO THE S.

Friedrichshafen, Sept. 5.—The new German super-zeppelin, Count Zeppelin, which is completed and ready to take the air, will not start her Atlantic trip to Lakehurst until October 12, the anniversary of the departure of the Los Angeles from here four years ago. This announcement was made by Dr. Hugo Goerner.

The Commander explained what he characterized as a regrettable delay was caused by the installation of the new gas plant for the manufacture of blue gas for the motors instead of gasoline. The plant was at first fixed with a delay of two months before the contract date and then with a breakdown when they started to make the gas. The actual manufacture of the blue gas began only yesterday at the rate of 1000 cubic yards daily, that the contract calls for.

The super-zeppelin will require between 30,000 and 40,000 cubic yards for the transatlantic flight.

The filling of the 18 gas cells with lifting gas is beginning and the giant airship will take the air for the first time next week for a test trip to Lakehurst. The trip to Lakehurst will be made after the return from Lakehurst.

THE BOSTON SUNDAY ADVERTISER leads

I—According to the official figures furnished by the Boston Newspaper Statistical Bureau for Sunday, September 2, the Boston Sunday Advertiser carried more

AUTOMOTIVE DISPLAY ADVERTISING than any other Boston Sunday newspaper.

Here are the official figures:
Boston Sunday Advertiser 6,420
Second Paper 6,062
Third Paper 4,398
Fourth Paper 4,092

II—The Boston Sunday Advertiser was the only Boston Sunday newspaper to show a gain in Automotive Display Advertising over the corresponding month of last year.

Here are the official figures:
Boston Sunday Advertiser
Gained 2,430 lines
Second Paper LOST 1,590 lines
Third Paper LOST 3,520 lines
Fourth Paper LOST 5,758 lines

The above figures disclose a convincingly firm confidence on the part of some of the largest and shrewdest buyers of advertising space in the purchasing capacity of the Boston Sunday Advertiser audience.

State Street Notes

LOANS OF New York Stock Exchange members today amounted to \$1,000,000,000, an increase of over \$100,000,000 for the month, showing the rate of a Federal Reserve bank decline in the large amount of money flowing into Wall Street.

BOSSE LIVERMORE, the speculator, has returned to the street. Two of his associates, Continental, Can and Electric, are also in the street.

TEXAS CORPORATION is said to be negotiating for the sale of 100,000 shares of land from Texas Land Trust.

CALL MONEY was 7 1/2 per cent.

WALL STREET, Sept. 5.—The market was mostly steady.
